

Passion for Parts

Rock Solid GET Performance from ITR

ITR GET teeth and pins packaged in convenient heavy duty plastic buckets. Perfect for shops and service trucks that maintain a wide variety of equipment.

ITR's Ground Engaging Tools are designed and built to deliver the performance and the rugged durability needed for a wide variety of applications.

Produced for strength, maximum wear life and superior breakage resistance, ITR's GET components move more material over a longer period with less downtime, giving excellent value and lower maintenance costs.
