

PASSION FOR PARTS

SMOOTH PAVER TRACKS

The Trackman® Advantage...

- *World's first smooth track design. Superior paving quality and comfortable ride.*
- *Continuous, full thickness edge reduces edges damage & extends track life.*
- *Chamfered edges for minimal surface disruption.*
- *Up to 60% increase in tread life compared to other tread designs due to high "net-to-gross" profile & "increased tread depth".*
- *Largest primary cable in the industry, improves track tensile strength up to 20% and cable break strength by up to 80%. Patented cable construction & increased wire ply end count.*
- *Increased wheel path thickness (+33%) for extended wheel path life.*

Cat AP555E, AP655C/D & 1055B/D/E/F

Blaw-knox PF4410 & PF5510

Volvo PF4410

Vogele 880RTB, 1110RTB, 2116T, 2119T, 5100-2 & 5200-2

Roadtec RP155, RP175 & RP195
